

Our New Junior School – Schedule of Construction Newsletter – Edition: 1

This is the first of our newsletters designed to keep the school community up to date with the work surrounding the construction of the New Junior School. Further newsletters will be issued on a regular basis.

Work is proceeding according to schedule. The calendar below is designed to give an insight into the work already completed:

September 2008	Site installation began
October 2008	Crane installation was completed
November 2008	Site levelling and excavation was completed. The site inauguration took place. Approximately 40% of concrete foundations were poured.
December 2008	Approximately 90% of concrete foundations were poured. The construction of the basement level columns and walls was ongoing – approximately 40% completed.
January 2009	Approximately 90% of concrete foundations were poured. The construction of the basement level columns and walls was ongoing – approximately 70%. Approximately 15% of the basement slab was poured.
February 2009	Approximately 90% of concrete foundations were poured. The construction of the basement level columns and walls was ongoing – approximately 90%. Approximately 50% of the basement slab was poured. Approximately 20% of ground floor beams were in place.
March 2009	Approx. 90% of basement slab was poured. Approximately 80% of ground floor beams were in place and 50 % of the ground floor slab had been completed.
April 2009	100% of basement slab completed. 95% of ground floor slab, 100% of gymnasium walls, and 20% of ground floor walls and columns poured.

In total, winter weather conditions caused work interruptions of 15 days.

Construction is scheduled to be completed in good time for the autumn term 2010 to allow for hand-over procedures to be carried out prior to the move.
