

British School of Paris

Our New Junior School – Schedule of Construction Newsletter – Edition: 7

Please take a moment to view the progress made during February of the new school.

From the Seine the building progress is clearly evident.

The landscaping of the grounds is now well under way and the road in front of the school is also being prepared.

The spring sunshine shows-off the light and airy atmosphere at the school as well as the lovely view over the Seine.

British School of Paris

Internally, classrooms, toilets and the multi-purpose hall have all made significant progress. Within the next week, the carpet and pvc areas are being laid and the playing surface in the multi-purpose hall is to be installed. The final coats of paint are being applied and the main entrance area is in the process of being tiled.

Dates for parents to be shown around the school by Mr Hornshaw are currently being discussed and will be published shortly.

For more information and to see a virtual tour of our new Junior School please contact the marketing department on 01 78 64 70 04 or marketing@britishschool.fr
